Wyoming Statewide Outcome Measures | Mental Health and Substance Abuse Services [Report Card](#)

The following report uses data collected in SFY09 via the Wyoming Client Information System (WCIS) to illustrate the change in various client-level outcomes from Admission to Discharge. Treatment providers who contract with the Wyoming Department of Health to provide mental health or substance abuse treatment services are represented in the tables below. Both mental health and substance abuse agency information are presented, and the tables are divided according to client age (Adults vs. Youth clients), as well as clinical indication (SPMI Adults vs. Non-SPMI Adults; SED Youth vs. Non-SED Youth).
